

# HOW TO BECOME A CHAMPION RECYCLER

Want to see a circular economy where nothing goes to waste? Follow these steps to recycle your PET packaging.

Ready to recycle the 1? Let's get started!

PET bottles

PET trays

Look for the **number 1** on the bottom of your bottle or tray. That means it's PET and fully recyclable. Other numbers are recycled in different ways, so always check!

1

Empty your bottle.

You do not need to rinse it!

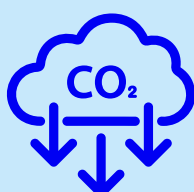

No need to remove the label.

2

Flatten the PET bottle.

This saves space in transportation and helps to reduce emissions.

Remember to place the cap back on.

3

Put your bottle in the dedicated bag or bin. You're done!

Put your tray in the dedicated bag or bin. You're done!

1

Empty the PET tray and remove any inner packaging.

You do not need to rinse.

2

Keep the lid on the tray.

Some cities have recycling bins in public spaces. If you do then great, just pop it in. If not, then take it home.

IN 2019, ONLY

59%

OF PET BEVERAGE BOTTLES WERE SORTED AND COLLECTED FOR RECYCLING IN THE UK. HELP US INCREASE THIS!
